HOSTILE ARMIES CONCEALED IN FOG

Operations on Large Scale Were Too Dangerous and Only Minor Movements Were Possible—Record of Previous Day.

Mukden, Oct. 20.—[N. Y. H.]—The fog, the heaviest since the beginning of the campaign, has been impossible to realize the effects of a campaign of the present.

Under such conditions only skirmishes and operations are possible as well. Both armies and artillery fighting from the roads in front, conjecture the fog might favor movements of the troops and [illegible] of unexpected points for attack without opposition or [illegible] but in the present one and an overpowering loss would fall on the front side.

Neither commanding nor underlying forces has been notable.

QUIET ON WESTERN FRONT.

With the Russian Position at the Village of Hsiaoshih, ten miles south of Sincheng, Mukden, Oct. 20.—[N. Y. H.]—The Russian position at Hsiaoshih, which was [illegible] in the early hours was [illegible] by the Russians, who [illegible] the Japanese attempt to [illegible] the Russian position. The Japanese [illegible] artillery in the early hours was [illegible] prevailed.

A Splendid Speech.

Mr. W. E. Burns, one of the speakers, was formerly vice grand master of the Brotherhood of Locomotive Firemen and is now vice president of the American Railway union. He was a [illegible] Democrat, member of the Illinois legislature. Mr. Lee S. Richardson, the other Chicagoan, is a member of the Knights of Labor and one of the American Railway union.

Preceding the meeting there was a parade of the Colorado City Republican club and the Colorado City Republican band. During the intermission between the parade and the opening of the meeting Mr. and Mrs. Bryan-Allen, of Denver, sang campaign songs which made a hit and were a novel feature.

On the Platform.

J. P. Jackson, of Colorado City, presided. On the platform with him, besides the speakers, were several of the county candidates and others including Judge Robert Kerr, Colonel E. Judge John B. Stephen, John S. Bird, Charles T. Feuld, F. F. Forquer and others.

Mr. Jackson introduced as the first speaker Mr. Lee S. DENVER DOGS ARE AMONG WINNERS

SIXTY PAIRS OF FAST HOUNDS STARTED IN FUTURITY AT PUEBLO, SAT.—SATURDAY THE LAST.

Pueblo, Oct. 22.—Sixty pairs of fast hounds faced Slipper James Norris of Colorado, in the Futurity of the Pueblo Coursing club's meeting today. Among the dogs entered were many of the best in the country. The purse of $5,000 is the largest ever offered and the entry list the largest.

The first round in the event had been postponed two days and the pairs were sent out in quick succession today in order to complete the round. The jacks were extra strong, but few of them failed to reach the escapes.

Fine weather greeted the large crowd and the sport was successful. A score of dogs were put out of the race with today's events. The second and third rounds will be run tomorrow, with the semi-finals and finals Saturday.

Among the winners are dogs from Denver.

Today's winners will pair for the second round of ties.

CUTLER AGAINST ITS OLD ALUMNI

Cutler academy will play a game of football with its alumni tomorrow morning. Arrangements were made a few days ago and a great deal of interest has been taken in the coming game by the former students of the academy. A fast team, with a few subs in case of accidents, has been secured, and the game against the regular eleven of the academy will undoubtedly be interesting.

Among the alumni who will compose the team to play against the team are a number of men in the college football eleven. The team will be chosen from among the following: Pete Wilson, Willis Fox, Leechenberg, James, French, Pitch, Burnett, McCreery, Roberts, Matt Wilson and Kittredge.

SCORES AT THE TRAPS

Lathrop, Oct. 22.—At the city of Lathrop this morning the citizens of the city had a shoot at the traps, a number of the sportsmen from the Colorado Springs Gun club and a shoot in honor of Mr. Bellamy Pearrell, of Denver, and Mr. Seymour, of New York. A. J. Lawton was high gun with 96 kills out of a possible 100. Scores:

SPORTING NOTES

The dressing room at the High school gymnasium received some great improvements this week. The room has been cleaned out and will be devoted exclusively to the use of the football and other athletic teams of the school. Eighteen new lockers have been put up and assigned to the members of the football team. Suits are now being issued and the rules of the game will be strictly enforced. The walls have been whitewashed and many improvements in other directions are being planned for the future.

The West Side football team had it all their own way yesterday when they played the Manitou High school team. The game closed 11 to 0 in favor of the West Siders.

THOMAS AT LEADVILLE

Ex-Governor Tells Republican Responsibility for Defeat of the Eight-Hour Law.

Leadville, Oct. 22.—Ex-Governor Charles S. Thomas arrived in this city at 10 o'clock tonight, his train having been delayed by a freight wreck. In spite of the lateness of the hour he was escorted to the opera house by a torchlight procession. He addressed a large audience on state issues. He defined law and order according to the Republican idea as the will of the governor and the proclamations of his adjutant-general. He said Governor Bell was the real governor of the state. The ex-governor was vicious in his denunciation of the Republican party, charging them with having defeated the eight-hour bill.

EVERY BONE WAS BROKEN

[illegible] MAN MEETS HORRIBLE DEATH AT COAL MINE EARLY THIS MORNING—WAS CAUGHT IN REVOLVING FAN.

William Raypole, a man about 45 years of age, was mashed to death in a revolving fan at the Danville mine north of the city early this morning.

The man was working in the fan house and, evidently, a flange of the revolving fan caught his overalls and drew him around, smashing him until practically every bone in his body was broken.

A scream heard by a negro employe of the mine led to the discovery of the accident. The negro ran around several buildings and finally lowered Raypole in the fan house. The power was quickly shut off and the mangled body was taken out of the fan but Raypole was [illegible]

Dr. Mehlhaff was called and hurried to the scene but life was extinct before he got there. The accident occurred a few minutes after 2 o'clock this morning.

COLOMBIANS MAY START SOMETHING

PROSPECT OF AN ANNIVERSARY CELEBRATION THAT WOULD MAKE TROUBLE FOR PANAMA. AUTHORITIES INVESTIGATING

Cuba Oct. 22.—There is a rumor current here that a large body of armed Colombians has been concentrated near Culebra with the intention of making an attack there November 3, the first anniversary of the secession of Panama from Colombia.

The naval zone authorities are investigating the report though not much importance is attached to the rumor, the origin of which is attributed to malcontents.

BAPTISTS WILL FIGHT POLYGAMY

RESOLUTIONS ADOPTED BY STATE CONVENTION URGING AMENDMENT TO UNITED STATES CONSTITUTION.

Pueblo, Oct. 22.—The annual convention of the Baptist Ministers of Colorado before adjourning the session today discussed the Mormon question and after discussion adopted the following resolutions:

Resolved, That the Baptist state convention do all in its power to urge upon the senatorial committee now investigating the Reed Smoot case to make every exertion to bring to light the whole facts in the case relative to his expulsion from the senate.

Resolved, That the Colorado State Baptist convention urge upon the congress of the United States to make an amendment to the constitution that will effectually suppress the crime of polygamy in any part of the country in which it is now being practiced.

LADIES INSPECT HOSPITAL AND SPEND AFTERNOON SOCIAL

The Ladies' Aid Society of the United Presbyterian church held a very pleasant social at the Deaconess hospital from 2:30 to 5 yesterday afternoon.

At the appointed hour the ladies arrived at the hospital, bringing with them fruits, jellies and canned dainties which they presented to the matron for the use of the institution.

Miss Peck, the acting matron, addressed the visitors and gave a detailed account of the good work and needs of the hospital. This opened the eyes of the visitors to the fact that [illegible] was a great and good work being carried on in their midst, that despite the liberal support of the citizens of Colorado Springs and vicinity, [illegible] were made by those who could do more for the cause in the future.

Tea was then served, after which visitors were shown through the building. They were pleased to find everything in good condition and that improvements were being made.

PARISHONERS TO CELEBRATE

THIRTIETH ANNIVERSARY OF FOUNDING OF FIRST CONGREGATIONAL CHURCH WILL BE FITTINGLY OBSERVED.

A notable occasion in the history of the First Congregational church of Colorado Springs will be celebrated next Monday evening at the parish house.

The date, October 24, will make the thirtieth anniversary of the founding of this church and a program of addresses and reminiscences, followed by a supper, will make up the evening's entertainment. It is expected that all of the church members will be present.

Rev. James B. Gregg, pastor of the First Congregational church, came to Colorado about the same time as Rev. Mr. Hole of Denver, and has been pastor of the local church for 20 years.

VOTERS APPLAUD SENTIMENTS EXPRESSED BY LABOR LEADERS

Continued from Page 3.)

Mixed with humorous incidents which always caused a laugh and frequently brought forth applause.

The College Quartet.

A quartet of college boys, composed of Shaw, Rose, Seyler and Ingle, then sang an original campaign song, which took the house so that they had to sing again. Time and time they sang a rousing song.

Mr. Jackson introduced Hon. A. E. West, Republican candidate for state auditor, next. He stated that Mr. Best is not an office seeker. Having twice refused the nomination from his district for the state senate and accepting only the office of mayor of Lamar in 16 years Mr. Best was heartily greeted.

Mr. Bent's Address.

Mr. Bent said in part:

"It is very apparent that the size of the audience means something. It means that people are interested in something.

"I wish to pledge you that when elected state auditor I will serve my state with fidelity and with credit to the Republican party.

"I see many young men here who will cast the first vote for a president and for fear you will not started right and be coming [illegible] to talk to you for a minute or two.

"Did you ever think that you should get in line with the party that for the past 30 years has done things in this country? It is necessary for you to carefully consider your first vote.

"It is necessary to have an opposition party, but if you align yourself with it you are a part of the negative element.

"Take your choice and will be satisfied for it is important for a man not to vote for Lincoln, Roosevelt, Cannon, Hanna).

"As Mr. Richardson has said, Theodore Roosevelt has demonstrated to the world that he is the friend of the laboring man by settling the coal strike in two weeks. (Great applause).

"I am proud to stand before you, a candidate on a state ticket that stands for business and I refer to the material interest of every good citizen in this state, irrespective of party or creed. (Tumultuous applause).

Believer in Unionism.

"I am a firm believer in legitimate, conservative unionism, as any man in this world. There has been nothing that [illegible] as pat the conservative unionism, such as is represented by men like Mitchell, Clark, Morrison and others. Unionism is here to stay.

"An organization of as good men as are in this country was unfortunate because it had injected into it something this country will not stand for, especially since the assassination of the martyred McKinley—that is anarchy." (Prolonged applause).

Losses to Labor.

Mr. Bent said it would be impossible for him to discuss the recent trouble to an audience that knew as much if not more about it than he did. But he would discuss the labor trouble from the point of an onlooker who has seen what has come out of it. He stated that as a result of the strike, employees of the Rio Grande railway alone, according to official reports, had lost the opportunity to earn $573,000; employees of the steel works at Pueblo had lost the opportunity to earn $3,500,000 because of the trouble in the coal fields; the town of Florence had lost the chance to earn $1,000,000 on account of the strikes and altogether, in this state, labor had lost $5,000,000 as a result of the trouble, not to count the crime and expense which the state has suffered. He then took up the advertising of the wrong kind this state has received, in the east as a result of the trouble. He continued in part:

"The irrigated sections of this state have not enjoyed the immigration they had for the two years previous to our recent labor troubles. We have been advertised daily in the press from coast to coast that it is not a safe state.

A Business Proposition.

"It is business for every citizen of Colorado to look to his own interests. It is business for every loyal citizen to look at the conditions which surround the [illegible] of labor.

"Since the recent [illegible] we are steadily increasing the number of [illegible]. What Because the people have been afraid to locate in this state [illegible] and unbalanced.

"It is business for us to help on with [illegible] the credit of this state. It is up to us to decide. I want to tell you that this trouble is settled and that is all [illegible] Democrats as for the two parties—they [illegible] short lived between them [illegible] It is a question of regaining the credit of this state and placing our industries [illegible] Applause.

The Wage Question.

"It is unnecessary for the Democrats to try to decide the people to decide that if democratic Pueblo [illegible] with be restored. When those [illegible] are running there will be [illegible] and for him. That it will be [illegible] and the Democratic [illegible] a necessity to raise the price of his [illegible]

BLAZING TRAIL FAR ABOVE CLOUD LINE

Summit of Mount Sopris Is Being Made Accessible to Travelers—M. Ballard Dunn Graphically Describes Region.

Another of Colorado's peaks is to be opened to the tourists. Mount Sopris near Glenwood Hot Springs is the new mountain that will be scaled and before the next season is well under way the trail to the summit will be completed and the accommodations planned will be in readiness for the use of those who come to Colorado to see the splendid scenery here.

M. Ballard Dunn, secretary of the chamber of commerce at Glenwood Hot Springs and formerly of the Gazette staff was in the city yesterday and entertained the gang for under way for the opening of the new peak that bids fair to take its place along with the famous Pike's Peak.

"In the first place," said Mr. Dunn, "Mount Sopris is nearly 300 feet higher than Pike's Peak. It is accurately 14,000 feet, and in every respect the scenery to be found in approach to that upon the summit is equal to that of Pike's Peak. There are the same kinds of trees and flowers, the same rock formations and the same cool, clear air. From the top of the mountain, and when one is there he can truly say that he is on the roof of the continent.

Over 6,000 Feet High.

"Mount Sopris rises abruptly from the valley in which it is situated and stands above it approximately 6,000 feet, and when one stands on its summit he looks down that distance to the valley below. Beside that on the Manitou side of Pike's Peak is a shallow ravine.

"What is more, one gets a double view from the ridge of the mountain. The ridge is about a quarter of a mile long but only a dozen feet wide, and standing there one can see down on one side 6,000 feet and on the other over 6,000 feet to the bottom of an old ice bed. The ascension is one to be remembered, and when one has climbed to the summit of Mount Sopris he knows that he has been to the top of one of the finest of the peaks in the Rocky mountain range.

Like Roaring Niagara.

"There are two gulches leading down from either side of the mountain, the saddle between the peaks forming the ridge that separate them and roaring up one side and down the other, the wind makes a sound like Niagara. It is a ceaseless roar and until the phenomenon is explained the visitor imagines that there must be an immense water fall somewhere on the summit.

"There is a strip of perpetual snow stretching between the peaks about a mile and a half long and a hundred feet wide. The strip is such as it is necessary to build a toboggan slide, where visitors may take a ride 14,000 feet above sea level in the middle of July.

Company at Work.

"The company that has been formed for the opening of the mountain to visitors has constructed a road to the top line, where one can saddle up or ride carriage, and carriage hire will be charged and stocked with trout, and lodges and cabins built for the use of those who desire to take an early morning ride and see the sun rise from the top of the World. The lakes will also be used as a recreation for fishermen and hunters, Mount Sopris being a wildly wild country, and some of the best hunting grounds of the country are accessible from it.

"The railroads of the country have agreed to make use of Mount Sopris pictures in their books on Colorado for the coming season and it is confidently expected that it will become one of the chief attractions from the great popular resort of Glenwood Hot Springs."

Mr. Dunn left last night for Denver and from there it will go to St. Louis where the attractions of Mount Sopris will be set forth in the Colorado exhibit at the World's fair. He will be there until the fair closes, and in addition to looking after the interests of the Mount Sopris country, one of the exhibits of needless apples that is attracting much wide attention all over the country.

CHARGED WITH ASSAULT BY MAN WHO RESISTED ARREST

Constable Samuel Shellenberger has troubles of his own now. This morning he officer is usually interested in the troubles of others, but at last he has his own to look after.

He was arrested yesterday on a warrant charging him with assault and will have to defend himself this morning. His friends are enjoying the joke on the officer but do not predict any serious results from his trouble.

Constable Shellenberger went to the South Cascade avenue Wednesday evening and upon orders from the owner of the property proceeded to remove certain timber, also out into the sidewalk. Porter Sherman and Sam Williams ob-

BOVINE WITH A LONG PEDIGREE

HOLSTEIN COW THAT IS A RECORD-BREAKER WHEN IT COMES TO GIVING MILK, COMES TO WORLD'S FAIR

A royal Holstein cow passed through this city yesterday on the way to St. Louis. The famous animal is known as Sadie De Kol and is being sent to the World's fair and National Dairy Makers convention at St. Louis.

The pedigree which is attached to this cow's name is longer than most aristocrats can boast of and she holds the world's record for seven days twice-a-day milk-giving tests.

This famous representative of the bovine family travels in a special steam-heated car and has an attendant who stays with her constantly and guards her against cold possible harm.

ANOTHER MILL AND SAMPLER PROJECT

Plans for Big Ore Treating Plant at Portal of Ophelia Tunnel Owned by the Pueblo Railway Company.

Cripple Creek, Oct. 21.—Plans have already been drawn up for the erection of a large mill and sampler to be erected at the portal of the Ophelia tunnel located about a mile south of this city. A. J. Crane, president of the Pueblo Railway company, which is the owner of the tunnel, has left for the east with the plans in his pocket and the proposition will in the probability be financed.

The project is one of the largest that have been originated in the Cripple Creek district, for some time, the plans for the erection of which will be a surprise to many in the surrounding country which will necessitate the employment of many workmen, the work of installing the machinery, which is now almost completed will also be furnished for by the sale of stock in the company at the same time that the mill is erected.

Company Reorganized.

A recent reorganization of the old company has been made in which Messrs. Crane, Hagerman and Bruce, the latter two of New York, are interested. The former position and last mentioned many of the properties for which the company was formed. The company, it is now established, will be in a position to transport its ores by means of different railroads from the mines to the mill, thereby saving a great deal of money.

Will Construct Railways.

This proposed mill and railway company will obviate the necessity of companies working their ores at great expense and then hauling it down the hill again, as the new railway company will seek to construct railways to various properties and shafts along the route of the big bore to connect with the main tunnel.

At the present time the tunnel has been driven for 5,000 feet from the portal and has a double track railroad grade, when finished the tunnel will cut the Bull Hill section of the camp at a depth of 1,650 feet and will also carry a drainage way which will be invaluable to many in that section.

A few of the properties which the tunnel will pass closely in the Anaconda, Peep, Doctor Jack Pot, Mary McKinney, Ocean, American Eagle, War Eagle, Last Dollar, Findley, Stansfield, Independence, Pharmacist and Pueblo and other properties, besides other properties not mentioned.

LESSEES DRIFTING ON ROSE MAUD

MANAGER THINKS THERE WILL BE NO DANGER TO MINE TO 200-FOOT POINT — REGULAR SHIPMENTS.

Special to the Gazette.

Cripple Creek, Oct. 21.—The Pueblo-Cripple Creek Development company, which is operating the Rose Maud property, situated on the southwest slope of Bull hill and near the famous Vindicator group, is now engaged in sinking a new shaft, having a depth of 200 feet at present, and is drifting from the bottom at distances from the shaft.

Manager Hagerman, of the company, is now employing a force of seven men and is shipping regularly. Two carloads of ore have been shipped from the property during the past week and others are now getting ready to go forward. The ore is of a high grade and is said to be very rich.

HAGERMAN AT BASSAC DARNELL FROM EL PASO

Special to the Gazette.

Cripple Creek, Oct. 21.—George Darnell, formerly a mining engineer of the Pueblo smelter, and for the past year in charge of the Pueblo-Cripple Creek Development company's property on Bull hill, has resigned his position with the company, and will leave for El Paso, Texas, where he will be employed by the Guggenheim Exploration company, which has large mining interests in Mexico. Mr. Darnell has been working in Cripple Creek for the past two years, and has many friends here who regret to see him leave. He will be succeeded by Mr. Hagerman, who has been in charge of the Rose Maud property for the past few months.

WORK ON FOUR BROTHERS CLAIM

HOWARD AND ASSOCIATES HAVE RESUMED SINKING AND EXPECT TO GET DEEP FINAL FROM 1,000 FEET.

Special to the Gazette.

Cripple Creek, Oct. 21.—Lessees Howard and Associates, operating on the Four Brothers claim of the Currency company, and located at the northern extremity of Lawson hill, resumed the sinking of their shaft from the 150-foot level, where they will drift for another 50 feet.

The lessees at this depth expect to find several known veins traversing their ground. Operations by these lessees were commenced at a depth of 100 feet, when levels were run to several points ranging from one to three feet in width and returning pay values, but no bonanza like ore shoot, the pay values played out and only one shipment was made.

Now they believe that they will find the same veins when they reach the 150-foot point.

PINNACLE

Pays and Others Take Lease on This Old Property Where Former Lessee Made Fortune.

Special to the Gazette.

Cripple Creek, Oct. 21.—Leasers Page and associates, who recently secured a lease on the Pinnacle company on Bull hill, started operations this morning.

Work began in the shaft which is down to a depth of 50 feet, where numerous drifts and levels have been opened and as soon as air line can be put in these levels, the lessees will commence operations at several different points.

It will be remembered how Whipp and New formed leases on this property, opened one of the largest ore bodies ever encountered in the Cripple Creek district, and which yielded $25 to the value of 1,000 tons.

TWO THOUSAND LEASE FROM THE W. P. B. CLAIM

Special to the Gazette.

Cripple Creek, Oct. 21.—Lessees Mahan and Beaver, operating on the W. P. B. claim on Ironclad hill, are now shipping at the rate of two carloads of ore per day, which is running in the neighborhood of five ounces to the ton. While the ore is coming from several different parts of the mine, the majority of it is being taken in the 50-foot vein which was encountered at the 225-foot level.

Under Physicians Five Months. Went from Bad to Worse

CURED BY CUTICURA

Wonderful Change in One Night. In a Week Face Was Clear as Ever.

"I was troubled with eczema on the face for five months during which time I was in the care of physicians. My face was in such a condition that I could not go out. It was going from bad to worse and I gave up all hope when a friend of mine highly recommended Cuticura Remedies. The first night after I washed my face with Cuticura Soap and applied Cuticura Ointment, and continued the treatment with Cuticura Resolvent (Blood and Skin Purifier), and Cuticura Soap. From then on I was able to get out, and in a few weeks my face was entirely clear." THOMAS J. SOTH, 811 Bragg St., Brooklyn, N. Y.

The above letter was received in 1903 and he gave written us Feb. 12, 1904, "I have not had a troubled with eczema since."

The agonizing itching and burning of the skin in eczema, the frightful scaling, as in psoriasis, the loss of hair and crusting of scalp, as in scalled head; the facial disfigurement, as in pimples, blackheads, red, rough, and chapped skin, the awful suffering of infants and anxiety of worn-out parents, as in milk crust, tetter, itch, ringworm, and many other forms of scaly, crusted, pimply, and blotchy skin, scalp, and blood diseases, with loss of hair, from infancy to age, are positively cured by the Cuticura Remedies when all other remedies and methods fail.

Millions of Cuticura Remedies were used during the past year in the treatment of eczema, itching skin diseases, rashes, and irritations, in the form of baths for annoying, irritating, scaly, crusted, and pimply skin diseases, in the form of washes for ulcerative weakness, and in the form of ointments for sores, inflammations, itching, and chafing. No other remedies can show such a record of cures.

Cuticura Remedies are sold throughout the world. Cuticura Soap (31), Ointment (50), Resolvent (50), Pills (50), per box. Potter Drug & Chem. Corp., Sole Props., Boston, Mass.

SAVED HIS LIFE.

"Dear Sir:—I write to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump in my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured the wound and well. It is a wonderful medicine and I recommend it to suffering humanity." 25c. Drug Co.

EMOTIONAL HAIR.

Peculiar Manner in Which One's Locks Are Affected by Conditions and Experiences

Once in a while we hear of persons whose hair has "turned white in a night," and we have wondered why it was. This and other phenomena may be accounted for by the fact that hair is "emotional."

Not only is "emotional" hair well known to medical specialists, but every hairdresser of experience recognizes it frequently in connection with his own work.

With some peculiarly constituted people the hair is affected by every passing condition, and not only does it reach the extreme opposite of lustrousness within a very few hours, but it varies in color readily.

This peculiarity is to be met with occasionally in persons of almost any age, but it is more frequently found in those who are highly nervous or those who have undergone some great trouble or shock.

Many of the cases of premature gray hair that are to be found in persons of middle age are due to the fact that the hair is emotional, and that some great trouble or shock has caused the hair to turn gray.

We all know what an influence a sudden shock, grief or fear has had upon the color of the hair, and we have all heard of cases in which human hair, but one of the most interesting and remarkable on record is related in this very volume.
